

My name is Alice Fujita-Schwarz. I am member since 2001.

In these 18 years of member I had permission to solidify my faith in Messiah Meishu-sama. I was born in Brazil and I live in Fargo, North Dakota since 2016.

I always watch the Service from Facebook. Come here and watch live has another energy! I can feel that my ancestors are happy! Today I would like share some of my activities through the faith.

In January of this year, I got permission to have home altar. Reverend Nagase went to Fargo for the first time. He almost frozen.

We had 15 of my friends in the ceremony and 2 people, my husband and a friend became a member. It was a very happy day for me. I wasn't alone anymore. Since then, we are doing monthly service. This month, each one of us had someone to minister Johrei. It is growing!

I am always trying to practice the three pillars of Salvation: Johrei, art and nature farming. Sometimes I struggle to know if I am doing the right way to show Meishu-sama philosophy. However, I know I am in the right direction when everything goes smoothly.

Last year, my husband told me to do master gardener course to learn more about planting and growing plants. In this course, we have to volunteer in the community to get the certificate. So, I thought I will do flowers arrangement workshop so I get the volunteer hours and at same time I will be divulging Meishu-sama works. It was a win-win, right?

So, I did Holiday arrangement, last year. With this course I also could applied for a grant at therapeutically Horticulture program. In this program, there is a study that show that people working with plants can improve human health. It is exactly what Meishu-sama told us! So, I wrote 2 Grant's. One for flower arranging and one for home gardening and I got the grant! I am doing in May. I am also got selected to do a 5 days course of women's leadership to help to build better community.

I would like to thank Meishu-sama and my ancestors for using me as an instrument of Divine Plan to build Paradise on Earth.

Thank you very much
